

**CITY OF FULLERTON
MEMBER OF THE CITY COUNCIL**

RALPH G. BAKER

AGE: 53

OCCUPATION: Security Guard

I became a resident of California in 1955. I became a resident of Fullerton in 1988 and started attending the meetings of the city council in 1998. I am a candidate for the city council because I am not satisfied with our government.

My friend, Clesceri, is the only member of the city council willing to mingle with the people. A vote for Baker is a vote for a city council that will represent the people by being there for the people.

We have a city council that cannot wait to spend millions on redevelopment and yet it is like pulling teeth to get them to spend \$300,000 to fill vacancies on the police department. A vote for Baker is a vote for a city council that has proper spending priorities.

We have a city council that is only willing to listen to the developer's side of the Coyote Hills issue. A vote for Baker is a vote for an openminded city council that will listen to both sides of every issue.

We have a fine community and you deserve a city council to match it. A vote for Baker is a vote for the city council that you need.
